DAILY SENTINEL.

WM. E. PELL, PROPRIETOR.

THE MEN WHO ARE TO GOVERN ALABAMA—A REMARKABLE CANDIDATE FOR LIEUTENANT GOVERNOR.

[From the Montgomery Mail.]

The Radical Convention which adjourned the other day after making itself the laughing stock and by-word of a continent, signalized its departure by nominating candidates for the State offices, to be elected under the Radical military Constitution. The person nominated for Governor, a Mr. Smith, will not hold that office, if elected, more than a few months. It is the design of the Radical party, and it was so expressed at the nominating caucus to transfer Mr. Smith immediately to the United States Senate. The man who will be elected to the office of Lieutenant-Governor, is the one intended by the caucus to rule the Commonwealth of Alabama for the two first years, in which the militia bill operates, to deprive every conscientious and honest freeman of his liberties. The man nominated for Lieutenant Governor, and who, it is proposed by the Radicals, is to govern a million of Alabamians, is a coarse, vulgar, illiterate, impudent adventurer from Ohio, named A. J. Applegate. This person, Applegate, has been an *attache* of the Freedmen's Bureau at Huntsville. He is openly charged with conduct which instead of elevating him to the executive chair of a virtuous and intelligent people, should properly debar him as a felon from the privilege of suffrage. This man, a carpet-bag adventurer, whose standard is hoisted by a few new comers as unknown and as suspected as himself, asks the votes of the negro race, a member of which he is openly charged with having swindled. Whether the man is dishonest or not we do not know. We can only draw our own conclusions from what we see boldly proclaimed and unrefuted in the public press. If not dishonest, the man who is proposed as future Governor of Alabama is a low adventurer, devoid of the commonest rudiments of education. His superior in address and education can be found in any collection of negroes upon our streets. We make this assertion, not loosely, but with ample material before us as proof. This Applegate became incensed at the *Independent* for publishing an account of his swindling conduct towards the negroes in his employment. He sent the editor a copy of the Radical organ of this city and wrote a few lines upon the margin of the paper—a note which does not deny the conduct imputed to him, but endeavors to implicate others, as though association of numbers is a sufficient excuse in his conscience for systematic fraud. The *Independent* gives an exact copy of the note, which is written in a vulgar, illiterate hand, as follows:

"Complements A. J. Applegate hopes you will shew up all the members of the firm connected with your Masaville letter subject for particulars I would refer you to John Gites or Joseph Henderson who was also members of that firm and against whom ah Attatchment Suit is now pending in your town for said claimes."

This is not the only evidence we have of the total unfitness of this man for the position of ruler of a great State. On Friday night at a Radical ratification meeting held by a few whites and a small crowd of negroes, this candidate for the gubernatorial chair delivered an address, marked by vile insults to the white people of the State and lying promises to the colored people. It was the speech of a depraved, cunning, illiterate, brutal demagogue, inflammatory of the passions of the colored men who listened to him, and disgusting to the whites. At the conclusion of his speech he wrote it down, leaving out the incendiary features, for the reporter of the Associated Press.—The copy furnished by him is now in our possession, and by appending it to this editorial we vouch for its entire accuracy. It is silly and illiterate to a degree that is not amusing but actually heart-rending. The creature who penned this thing, called a speech, is proposed by the Republican party as Governor of one million of Alabamians.

It will be observed that this creature from Ohio, who is to govern our brave, intelligent and virtuous people, speaks of the "stumendious folly and meanness of His Acidency at Washington." He capitalizes common words in the middle of a sentence, and begins his sentences with a small letter. He speaks of "Looyal men," and the right of "Suprage." He says that the colored man is "Eaqul to the Emergisy," and the rebels want to make this fair land a "pandemonia." He says that the extension of "suprage" to the colored man has "pruven" the most complete "sucess."—This low creature absolutely writes the name of the late martyr "Lincon." He says the ball will be "kep" in motion until a thousand school houses may be "scan" on as many hills. Will such a thing as this Applegate ever fill the Gubernatorial chair of Alabama? O shame! where is thy blush? Here is the man's speech! Read it and weep!

"The constitutional Convention which Ended its labors to day have made for Alabama a Constitution which for the first time secure to Alabama a republicial in form.—It Secure to all men all their rights before the law without regard to race or color, and if Alabama ratifies the worke of the Convention Alabama will start on a new Career of honor and glory and will never Stop until she rivals many of Her Older sister States.

My friends, the wretchedness everywhar to be seen in this State is a monument to the stumendious folly and meaness of his Acidency at Washington Andry Johnson, who when He made his famous Tinnisee speech in which declared Himself the Moses of the colored man but He lured them on but to betray them which he has most successfully done. He organized State government in this country in violation of the Constitution of the U. States but among the many terms he imposed was that they must elect Looyal men to office which resulted in the Election of Governor Patton and all the Officers of the State from Governor down to Constables was elected for their complicition with the rebellion and throughout the State there is not a Loyal man in office with the exception of the few who have been put in office by order of the military commander. (A voice in the crowd, "they are few.")

It is frequently said by our esemies that the colored man was not fit to exercise the right of suffrage but my friends I Chalenge the world to furnish an Example of a people so lately released from Slavery without Education or any training in politicks the history of the last campaign proves most conclusively that the Colored man is equal to the Emergisy the proven themselves more fully up to the spirit of our institutions and more true to the Constitution liberty than the white man of this country for the Rebels of this country have proven by their actions that they like Satan who When He Could not rule in heaven that He purpose to rule in h—ll those men fine they cannot rule this country any longer and they propose to make this fair lann of ours a pandemonia for all the biting Curse and the devastating influance that every where is to be seen is due to the resistance and the opposition that the Rebels of the South have thrown in the way of reconstruction the Colored man had thus far proven Himself worthy of the trust and a patriotic Congress who has given the Colored man His political rights will nevr have Cause to regret that action for thus far it has pruved the most complete success of any piee of legislation of this or any other time but my friends the imortal Lincon the father of Statesman by a proclamation which took Efect on the fist day of Janury 1863 put the ball of Liberty and universal Equality of all men before the law and for the fisrt time in the history of this Country that the Declaration of American Independence was no longer a lie, but that "all men were Created free and Eaqual" the ball which we have Set in Motion this night will be taken up and rolled back to the Mountains of the North it will be kep in motion until Ever hill top and in Ever Valy may be herd the Snort of the locomotive and untill the hum of a Million Spindles may be herd a thousand School houses may be Seen on as many hills and untill this fair lann of ours shall blooms and blossomes again as the rose."

Great attention paid to consignments of Cotton, Corn, Peas, Bacon, &c., &c. All produce forwarded at the lowest possible rates.

THE UNIVERSITY.

The Trustees of the University, after a protracted meeting adjourned on yesterday. Very important business was transacted, which will meet the approval, we trust, of the friends of the Institution.

It was decided to make a radical change in the course of instruction, by adopting the plan of independent schools, called by some the "University system."

Much more prominence is given to English studies and the Natural Sciences while the classics and mathematics are allowed their due weight. We will take pleasure in laying before our readers the report of the committee appointed to frame the scheme, and, also, the leading features of the system.

It was found impossible to put the new scheme into operation in the middle of the Collegiate year. Hence it will go into operation in June next at the commencement of the next year. At that time a President and Professors will be elected to fill the various chairs.

In the mean time President Swain and the other members of the Faculty are requested and will consent to remain at their posts during the next session, while Prof. W. C. Kerr, State Geologist, with the advice and consent of the Board of Literature, will give a complete course of Lectures in Chemistry, Mineralogy and Geology to the Senior Class. The chair of Metaphysics will be temporarily filled by the Executive Committee. An Address will be issued to the people of the State by that Committee.

The Trustees are determined that the University shall be all that such an institution ought to be, and for one we say, God speed.

THE CONGRESS.

The proceedings of this body, so far, indicate no very decided action upon any subject until the holydays are over, beyond the action on impeachment.

The Reconstructionists in the House have pledged themselves to take no back step.—Mr. Stevens has offered his bill looking to an advance in Radical severity upon the South and showing a purpose to gratify his own vindictiveness and that of Southern Disunionists and Loyalists, against the true white people of the South. Our impression is, that hardly anything worse will be effected than that proposed in Mr. Wilson's bill, which, however, must encounter, if debate is allowed, a pretty severe conflict with the two edged sword proposed by Mr. Doolittle.

Mr. Stevens' new bill is constructed upon his assumption, that is the matter of reconstruction Congress is acting entirely beyond the Constitution, that the Southern States and people are entirely at the mercy and under the independent control of the Radical Congress, and sets at defiance not only the Constitution, but the other co-ordinate branches of the government. The proposition to empower the State Conventions, called as they have been without the authority of law and in disregard of all justice to the Southern white people, to remove the present State officials and to appoint others to their liking, who shall hold control in the event of the rejection of the new Constitutions by the people, and to supersede the military, is an abandonment of the Reconstruction Acts, and a fuller assertion than any which has yet been recognised by the Congress, that the States are simply conquered territories, having forfeited all rights and therefore must go back as new territories and new States.—We doubt if the Congress is ready to go that length, but it will risk in the face of the utter abortion which has been made of reconstruction, the carrying out of the Reconstruction Acts.

It will be seen that Mr. Garrett Davis, of Ky., has moved an investigation into the actual cost of the Freedman's Bureau since 1865. This proposition so wise and dictated by ordinary prudence, will be resisted by the friends of the Bureau, or if a committee is allowed, care will be taken in its composition and impediments will be thrown in its way, so as to prevent any report until after the Presidential election.—It it be possible, however, to obtain full and accurate information both as regards its pecuniary cost and its evil workings, it should be done, and any attempt to continue the institution should be defeated, until the disclosures are made.

The tenor of the debate on the bill repealing the cotton tax after the crop of 1867, exhibited the real *animus* of those who were not favorable to its adoption.—Mr. Cookling, of N. Y., could not avoid an unseemly bitterness towards the South, in opposing its repeal. His charge that the South had shown a disposition to concern itself more about its political rights, its representation in Congress, than its pecuniary condition, is wholly unwarranted by the facts.

GOOD FOR VIRGINIA.—It is announced that the Auditor of Virginia remitted to Messrs. Baring, Brothers & Co., of London, on Saturday, upwards of fifty thousand dollars in Gold to pay the five per cent. interest due by the State of Virginia. Besides this, the State paid 2 per cent. interest on her State debt at home last July, and it is said that the cash will be on hand to pay 2 per cent. more in January next. This is highly creditable to the Old Dominion, but how it has been done, while she is taxed heavily both for State and Federal purposes, we cannot understand. We should indulge an honest pride if our dear old State could do so well.

SALES OF LANDS.

The idea is perfectly crushing for our land holders to be compelled to have their lands forced into market at the present time. So great is the scarcity of money, that lands sold now at auction, unless there are interested parties present to buy them up, will scarcely bring one-tenth of their value.

We are informed that the sale of property belonging to the fine estate of the late Seth Jones, of this County, was astounding, because of the meagre prices at which it sold. The plantation at which Mr. Jones resided, and which on several accounts was considered very valuable, sold for a little over $3 per acre. In other sections we hear of similar sales. Under such circumstances, it need not be wondered at, that our people delay payment and resort to every other possible means to raise money to pay debts, rather than have their lands exposed to public sale.

The consequence is, that confidence is destroyed, no one being capable of judging what he is worth or what he can pay, when forced to pay. It is for this reason that we have advised every person who knows he is bankrupt, to go at once into bankruptcy.

Would it not be far better, for poor men of families, instead of crowding into the towns and cities, where labor cannot find ready and profitable employment, where rents and wood are so high as to constitute one-half the expense of a family, to go into the country and rent or buy lands and go to digging. The entire wealth of the South must be dug out of the soil, and the sooner most of us go to digging, the better.

DEMOCRATIC VIEWS.

The Washington correspondent of the Baltimore *Gazette*, gives the following views of the Democratic members of Congress:

"The Democratic members of the Reconstruction Committee have attended the meetings regularly, not with a view of participating in the business of the Committee, but to keep posted as to the purposes and designs of the Radical leaders. These Democratic members express themselves in strong opposition to the Southern people taking any part in elections or other proceedings under the Reconstruction laws and they urge that the Southern whites shall simply protest against the whole proceeding and withhold any assent to anything which is done, as they predict the time is not far distant when Congress will pronounce all these elections null and void, and will restore to the States their old Constitutions. Such is the firm impression of the leading Democratic statesmen here, and they are anxiously looking for the address to be issued by a committee appointed by the late Conservative Convention of Virginia. They express the hope that this address may be a simple appeal to the white people of the North to save them from negro supremacy—unmixed with any constitutional or other issues—and they declare their belief that the whole North will *rise en masse* and rally to the rescue. The Radicals on the other hand, defiantly declare their purpose to stand firm in defence and prosecution of their plan of Africanizing the Southern States, and the outside impression in Washington is that Congress will not vary its policy one iota."

CONDITION OF THE SOUTH.

From every quarter the accounts are most gloomy. The following is extracted from the Washington correspondence of the New York *Herald*:

"From several letters received here by a prominent republican Senator, it appears that the prospect for the winter before the white and colored people in Alabama and Mississippi is terrible to contemplate. One intelligent planter estimates that there is hardly enough provisions in the whole South to last over four months. He had himself already given notice to one hundred of his negro laborers that it would be necessary for them to leave before Christmas, as his supply of corn and bacon was nearly exhausted, and he had no means of providing for them. A number of planters had served a similar notice on their hands, and the result is that thousands of negroes will be left in a starving condition very soon.—Bread riots are anticipated, and possibly bloodshed. A planter in Alabama writes that not one in a hundred of his class will be in a position to continue the cultivation of cotton next year. He states the utter ruin that prevails cannot be adequately conceived. The present low price of cotton, the enhanced cost of its cultivation, the export tax of two and half per cent., and the high rate of interest charged on borrowed capital have left five sixths of the planters in Alabama, Mississippi, Louisiana and Southern Georgia almost penniless. But it seems the burden of the misery will fall on the unfortunate negroes, unless the Freedmen's Bureau applies its large surplus fund to their relief. A wail also comes up from Virginia. In the Southern section of that State destitution prevails among the farmers to an alarming extent. On the Peninsula, unless relieved from some source, a good many negroes will perish through the winter for want of food and clothing."

GEN. ORD.—Gen. McCardle, the editor of the Vicksburg *Times*, having been arrested by Gen. Ord for his articles in the *Times*, publishes a card, in which he concludes as follows:

"I do not regard Gen. Ord as the Emperor of this country, and as I believe that President Johnson and Gen. U. S. Grant are his official superiors, I shall apply to *them* for relief and redress. If *they* cannot, or will not, strike from my limbs the fetters which have been placed upon them by the commander of this military district—if *they* cannot, or will not, remove the shackles which he has imposed on the *Times*, then the liberty of the press, the most cherished right of a free people, must be classed with those things which "perished in the using."

NONSENSE.—Judge Thompson of Wheeling, Va., has published a book on the "Living Forces of the Universe," in which among other specimens of muddle, he employs the following:

"Intellectivity in these its sets of intusception, intelligibilities in the elements of discrimination furnished in and by the symbols and movements of nature and the acts of life, in the intelligible forces inwrought into existences in concrete and adjusted correlations and interpellences, and as they are inexistent in the co-ordinations of Being, exhaust the whole scope of human inquiry and cognition, and even that of angelic creatures." (p. 14.)

The Charlotte papers and people speak well of Maj. Lazelle, who has been in command of that post for some time, and express regret at his leaving.

THE FREEDMAN'S BUREAU.

It is often remarked, that one "must leave home to get the news," and we have often wondered at the remarkable success of many of the Southern correspondents of the Northern papers, in getting hold of facts which are well founded, among many that are not true.

The following Raleigh Correspondence of the New York *World* will surprise many of our readers, both in town and country.

Of Dr. Vogell we know nothing, from personal acquaintance, but W. R. Pool, Esq., is one of our aged and most respected citizens, whose veracity and integrity we have never heard called in question:

From the N. Y. World of the 16th.

NORTH CAROLINA.

GLOOM AND DESPONDENCY OF THE SOUTH—EFFECTS OF RADICAL RULE AND THE DECLINE IN COTTON—W. R. POOL—H. C. VOGELL—FREEDMEN'S BUREAU, &C.

[From our own Correspondent.]

RALEIGH, Dec. 12.

The condition of the country, as represented by the several correspondents in Alabama, Mississippi, and the other Gulf States, is in accordance with my observation and experience in this State. A widespread gloom and despondency, like the pall of night, hangs over the people. Two years of Radical tyranny and Negro domination has done far more to disorganize society and render men indifferent to the present and reckless of the future than the five long years of their unsuccessful warfare. The failure of the cotton crops and the great decline in cotton has also brought pecuniary embarrassment, if not ruin, on nine-tenths of the planters. There is no emigration to the South. Real estate cannot be sold for half of its value. Trade and commerce are almost entirely suspended, and as a necessary consequence, your merchants must not calculate on prompt remittances for goods already bought, or a revival of trade in the spring. It will require more than one season of abundant "seed time and harvest", to repair the waste places of the farmer. Nor is this all of this sad but truthful picture, for go where you will, you encounter hundreds of lazy, lawless, vagabond negroes wandering about, ostensibly in quest of work, but in reality seeking whom and what they can devour. Daily reports come from all quarters telling of their robberies, arson, and sometime murders, nor is there any "to molest or make them afraid" of their deeds of darkness and blood, for their "L. L." masters whisper into their willing ears the Radical morality of plundering, and it needs be, murdering their "rebel oppressors," while the F. B., without the trouble of investigation, often defend and encourage them in their diabolic acts. While your correspandent could enumerate many cases in support of the above charge; he will only cite one, vouching for its correctness. A few weeks ago, William R. Pool, Esq., one of the most respectable citizens of this county, had his cotton gin, with his cotton crop, burned by some sable desperadoes.—Soon after twelve or fifteen of his fattened hogs mysteriously disappeared, and still more recently several of his already reduced stock of hogs "came up missing." Provoked and exasperated by these repeated depredations, he called on several of his neighbors to aid him in ferreting out it possible the guilty parties, and, accompanied by a civil magistrate, they soon discovered where one or more of his hogs had been slaughtered. Following the trail of foot-prints and traces of blood, they were led to a cabin not far distant, occupied by an old negro wench and her son, known by the name of Albert Hinton; the cabin was searched and portions of a newly-killed hog were found concealed in the old woman's bed. She stated to the magistrate that her son brought it home a night or two previous; he stated that he had purchased it from a wagon on the public highway—but there being other abundant proof to justify his guilt, he was indicted for hog stealing. The next day, however, the negro hastened to this city and prefers charges against Mr. Pool before the Bureau, when the following insulting order was immediately issued and duly served on Mr. Pool.

"BUREAU OF REFUGEES, FREEDMEN AND ABANDONED LANDS,
Office of Agt Sub Dist. of Raleigh,
RALEIGH, N. C., Dec. 4.

W. R. Pool:—Albert Hinton complains that you charge him with stealing meat.—Mr. Pool, things have come to a strange pass if a colored man cannot buy meat from a wagon in the road without incurring the charge of stealing. You had better look further than this man's house. Perhaps your olfactories will enable you to get on the right scent. You might come to market and seize every piece of meat you find on the stand, on the same principle on which you charge him of stealing. You will please call at this office and explain this matter. These men shall be protected in what is just.

Yours respectfully,
H. C. VOGELL,
Agent Bureau R. F. and A. L."

Comment is unnecessary. I will merely add, that this Albert Hinton is a lusty negro of the most abandoned character. W. R. Pool, a gray headed old gentleman, long a director in the Bank of the State, and for many years the presiding officer of the county court, and H. C. Vogell, United States Army Surgeon, pseudo Baptist preacher, negro radical of the Sumner type, and the dignified "Agent Bureau R. F. & A. L.," and this is the courtesy and justice often bestowed on the best white men of the country—the sympathy and protection of ten lavished on the worst black scoundrels in the land, by the agents and officers of "the best government in the world."

Permit me to ask how long should a stricken but law-abiding people submit to such unjust and degrading *official* acts, inflicted by such negro worshipers as this fellow Vogell, "agent Bureau R. F. & A. L." —and the cry goes up from hundreds of thousands in all this southern land, as the voice of one man, how long will their brethren of the North submit to paying *millions* of taxes (see Grant's reports) to be squandered in building negro churches and school houses, and running the Freedmen's Bureau, thus pampering and supporting hundreds of Vogell's whose sole mission it is to make money, lord it over the white man, teach and preach negro equality, and thus gain political favor through negro supremacy?

M.

The Springfield *Republican* thinks the Republican party would do as well not to insist upon Gen. Grant's committing himself to specific details of policy until the party itself has decided what policy it will adopt. "The party," it says, "never formally or generally committed itself to the Congressional scheme of reconstruction, in whole or in part; and, therefore, it would not be wise to impose such a committal by Gen. Grant. The *Republican* seems to question the right of Congress to lay down a policy for the party, and insists on its absolute and instant adoption. If this is not heresy, in the name of all that is sacred in party politics, we should like to know what is!

FROM ALABAMA.

MONTGOMERY, Dec. 16.—The *Advertiser* contains reliable information of the arrest of George Shorter negro, of this city, who was the leader of the recent insurrectionary movement in Bullock county. The negro Shorter claims to be from Illinois or one of the Northwestern States, and says that he was sent by the radicals of that section to organize his government in the South. The blacks gave information of his whereabouts and he was captured by the whites and blacks. When the deluded negroes of the neighboring plantations heard of it they gathered in crowds and clamored for his delivery to them for summary punishment. They would have put him to death, but the whites interfered and persuaded them to let the law take its course. Shorter was imprisoned in the county jail at Union Springs. A letter of Shorter's to the negroes, whom he called officers of his government, has been published, showing the nature of the organization he had effected. In this letter Shorter decreed the death of Jerry, the Treasurer of the Revolutionary organization.

There are other letters of Shorter's in possession of the civil authorities, and the whole of them with the evidence of the blacks' examination, will expose to the country in all its atrocity a radical plot to organize the blacks of the South in a revolutionary conspiracy against the whites. The following is Shorter's letter; "I drop you a few lines on this case about that great man Jerry.—Call all the men together and take Jerry and that money from him, and if he don't give it up kill him. Don't let him get away from you all.

It sent these men down to Perote, Bullock County, Ala., to hunt for him. He has stolen an amount of money. He has been going about and telling more lies unbeknown to me, he also had a full write against me, and I want Jeff McCall to take him or kill him, and I want ten more men to come down to Pine Level with George and bring your guns, tell all the men to go and take him or kill him. Jeff. don't fail. Signed

GEO. SHORTER.

Capt. Brice, Agent of the Freedmen's Bureau at Greensboro, took the keys and liberated a number of prisoners confined by proper authority. His action is severely condemned.

At a Sheriff's sale to day, real estate, railroad stock, &c., sold at remarkably low figures; land sold at from five cents to ten cents an acre, railroad stock at ten cents on a dollar.

CAN GRANT SAVE THE REPUBLICAN PARTY?

Thurlow Weed has the astuteness to perceive and the frankness to admit the mortal straits to which the Republican party is reduced. Gen. Grant's name, he says, "is an especial providence to the party, for the effect and reponsibility of the action of its leaders are pressing the party so hard that no other candidate can save it. If the present Congress fails to meet the necessities of the country and the expectations of the people, the question will be, when the Republican National Convention meets, not whether *Gen. Grant shall be nominated*, but whether *even Grant can be elected*." Nor does Mr. Weed stop with merely giving expression to this doubt. He exhibits the grounds on which it is based. The Republican party, he says, have already lost Connecticut, California, New Jersey, Ohio, Pennsylvania and New York. To the assumption of the Radicals that these losses may be compensated by the vote of reconstructed Southern States, he replies: "But the means resorted to to obtain the votes of the rebel States may cost the Republican party the votes of the other Northern States. Indeed," he says, "it is absolutely certain that, with the rebel States under negro rule in the Union, and Chase, Wade, Colfax, or Butler, the Republican candidate, we should witness the anomaly of a united South voting for and a united North against him!—The steps taken to attract the South, repel the North. Already blind, besotted universal negro suffrage in South Carolina, Georgia, &c., has deprived intelligent colored men in Connecticut, New York, New Jersey and Ohio of suffrage. But this, says Judge Chase and the *Tribune*, is of no consequence, as here we do not need negro suffrage, while at the South the Republican party is nowhere without it. They are indifferent to the question so far as the colored man is concerned. His rights and interests of no account. It is only important as it affects the party. The negro, in this respect, is as much a chattle now as when he was a slave."

THE KENTUCKY RESOLUTIONS ON NATIONAL AFFAIRS.

The resolution offered by Mr. Magoffin in the Kentucky House of Representatives on the 6th instant, and referred to the Committee on Federal Relations, was as follows:

"Kentucky, as a sovereign State in the Federal Union, and as deeply interested in the common weal of the whole country, has not only the right, but it is her solemn duty to declare her convictions upon all questions of public policy. The citizens of Kentucky are deeply concerned in the peace, harmony and prosperity of the whole country, and the destiny of the State is involved in that of the country; and prosperity depends, in a very great degree upon that of every other portion of the Union of which she forms a part. The Legislature of Kentucky believe that it is her duty to declare her solemn conviction that the Southern States are entitled to all the privileges, rights and powers of any State, and their citizens to all the political and civil rights and privileges of those of any other State. Two years and a half have elapsed since actual peace has existed over all this country. Fraternal feeling can only be restored by a restoration to political equality of all the citizens of all the States. Kentucky, therefore, declares that, in her judgment, a universal amnesty, without distinction, discriminations or test oaths, is at once demanded by the highest statesmanship as well as the purest magnanimity. She also expresses her sincere and individual interest in this matter, because certain of her citizens are subject to disabilities, liable to penalties or forced to remain in exile. She, therefore, urges upon the President of the United States a proclamation of universal amnesty, unrestricted by test oaths. She is entitled to the services of all her citizens. She desires the return of all her exiles to their homes, and the restoration of all lying under any disability to a perfect political and civil equality with all her other citizens."

GRANT AND STANTON.—A Washington dispatch explains, in part, why Congress has been so quiet about the "outrage" on Stanton involved in his suspension from office by the President. We give what is said:

"The silence of Congress on the subject of Stanton's removal is explained by the fact that a question of veracity has sprung up between Grant and Stanton as to Stanton's consent. Grant says he did. Stanton says he did not, and points to the 'superior force' item of his letter in proof of it. Stanton blames Grant for the readiness with which he came to Johnson's rescue; and Grant says he only did so to prevent some one more obnoxious to the Republicans from getting in. It is feared that if Congress commences a war about Stanton's ejection, this controversy may come out in bold relief, to the damage of either Grant or Stanton—it is not known which."

A fine Location for an Attorney at Law.

THE NEXT SESSION of this Institution will open the second Wednesday in February, 1868.

The location is unsurpassed for health and accessibility.

During the past session, in a family of nearly two hundred, there has scarcely been a case of sickness. The health of many invalid young ladies has been thoroughly restored by the celebrated mineral water found here and they have prosecuted their studies with entire success.

We are immediately on the Raleigh & Gaston Railroad, within less than a half mile of Kittrell's Depot, and in telegraphic communication with all parts of the country.

Every facility is afforded for the most thorough and extensive education.

The Faculty is composed of five male Professors and seven lady Teachers.

Everything is new. Our musical instruments, including Piano Organ, Harp and Guitar, are of the finest quality

Special attention paid to thoroughness in the English Course.

TERMS MODERATE and ACCOMMODATING.

The young ladies all worship in the College Chapel, and hence no extra clothing is required. Millinery is in no demand at Kittrell's. Parents tell us that their daughters cost them less here, in this respect, than even at home. Taking into consideration the items of dress and medical attendance, there is no cheaper school in the South. Besides, we are determined to accommodate our patrons as far as we can as to time of payment, and to put female education within the reach of the people, in the present depressed condition of the country. OUR PATRONAGE MUST BE EDUCATED.

NEW ADVERTISEMENTS.—R. Y. McAden, Esq. of Graham, offers his valuable dwelling and premises for sale. It is an excellent location for a lawyer.

Messrs. Pulliam, Jones & Co. offer for rent a house and lot in the Southern portion of the city.

Private boarding can be obtained with Rev. L. Branson, on Hillsboro' Street.

The Panorama of Columbia will be exhibited to night at Tucker Hall.

Notice the law card of Messrs. Fowle & Badger, in to day's issue.

PANORAMA OF COLUMBIA.—These paintings representing the beautiful city of Columbia, S. C., (said to be the handsomest city in the South) before the war, and also since its destruction by the Federal army, are said to be very correct and well executed pictures. It is the work we are assured, of native Southern artists, who have devoted much time and expense to gratify the public. Our cotemporaries where the Panorama has been exhibited, speak in high terms of it.

Not having seen it we cannot speak from actual observation, but taking it for granted that what has been said of it is true, we hope that the proprietors will be encouraged. We believe in encouraging our own artists, as we do in promoting every thing which is the result of the labor and genius of our own people. The Panorama will be exhibited to-night at Tucker Hall.

CO OPERATIVE ASSOCIATIONS.—Mechanics pursuing the same branch of business in all our Southern towns, should combine to improve each others welfare and not to injure each other.

Our House Builders, when work is scarce, might combine to purchase lots and build houses for rent. But we know no class of mechanics among us, who might accomplish more for themselves and the State, than our Shoe-makers, by forming a Co-operative Association. An extensive shoe Factory in this city might do well. Its location is favorable for communication with other parts. A combination of this sort, carefully formed, prescribing to each man his particular duty, might be established, and would require no large amount of capital to keep it going. The whole operation should be a *cash* one. The use of proper machinery would save labor, the combination would save rent, fuel and light.—The cost of the manufacture of boots and shoes of all kinds could be reduced, and the large amount expended out of the State, might be prevented. Think of it.

CAPT. JOHN S. MIDDLETON.—The death of this venerable and popular "old salt" is announced in the Norfolk papers. The people of all the Northeast counties will remember him as the universally beloved commander of the steamer Fox and others, running from Blackwater to Plymouth and Edenton, for many years.

AGRICULTURAL SOCIETY OF CHAPEL HILL.—We are officially requested to announce that the next meeting of the "Chapel Hill Agricultural Society" will take place at that village on Saturday, Dec. 28th., at 11 o'clock, A. M. Hon. W. H. Battle by invitation will deliver an address on the occasion. Several matters of importance will come up for consideration. Farmers and the public generally are respectfully requested to attend.

GEN. R. E. COLSTON, of the Hillsboro' Polytechnic school has consented to deliver his lecture on the life of Stonewall Jackson, before the Goldsboro' Library Association on Friday evening the 20th. The audience may expect a rich treat.

Our North Carolina exchanges, on yesterday, were almost barren of incident. We take cymfort from the old saw, "No news is good news."

For the Sentinel.

CO-OPERATIVE ASSOCIATION.

At a meeting of the Mechanics and Laboring Men of the city of Raleigh, held at the Mayor's office, on the evening of the 17th inst., it was decided to take steps looking to the formation of a joint stock Company, to be known as the "Mechanics and Laboring Men's Co-operative Association."

It is proposed that the Company shall be organized with a capital of $5,000 to be divided into shares of $10 each, and that no one shall be allowed to hold more than twenty shares. This money is to be invested in a general Grocery business, with such other connections as the Stockholders may deem expedient.

A committee was appointed to open books for subscription of stock, which has been done, and a book deposited at the Book store of Messrs. Branson & Farrar. It is hoped that all who feel an interest in this matter will promptly make their subscriptions, as it is desirable that the Company should be organized as early as possible. As soon as $2,500 has been subscribed, the Committee are authorized to call a meeting of the Stockholders.

It is useless to urge upon the intelligent Mechanics and Laboring men of this community, the claims of such an institution. All who will reflect for one moment upon the advantages to be derived from it, will at once see the necessity of such an enterprise. M.

ITEMS.

LINCOLN COURIER.—Our friend Britton, of the Lincoln *Courier*, gives notice that his paper will be at once removed to Charlotte and become the Daily Charlotte *Courier*.—Charlotte will, therefore, have three daily papers.

Maj. J. F. Shunk of Gen. Schofield's staff died at Richmond on the 15th inst.

The Norfolk *Journal* says, that the population of that city is increasing, and that houses are in demand.

The Loyal League of Warrenton, Va., has disbanded.

Half of the Norfolk County Ferry property between Norfolk and Portsmouth is offered for sale. The Committee will receive bids until the 10th of January next. We judge that this offers the best chance for good investment, of any property we have seen offered.

There is an immense oyster trade carried on by Baltimore. Nearly 4,000,000 of bushels of oysters are carried to that city annually, of these nearly 2,000,000 bushels are packed raw, 1,200,000 are steamed and packed and about 625,000 bushels are consumed by the city and surrounding country. The packed oysters are sent off to Cincinnati, St. Louis, Louisville and other Western cities.

THE POST COMMANDANT AND THE FREEDMEN'S BUREAU.—There were rumors prevalent upon the streets yesterday regarding a conflict of authority, said to have occurred between Col. Frank, the Post Commander, and Gen. Rutherford, the Assistant Commissioner of the Freedmen's Bureau, in relation to General Order No. 145, from District Headquarters, which vests the authority of officers of the Bureau in the Post Commander. On inquiry at Headquarters we learned that there had been no conflict to which importance could be attached.—Col. Frank, in compliance with the order alluded to, had directed the Commissioner of the Freedmen's Bureau to turn over to him all the books, records, and other papers pertaining to the office. This Gen. Rutherford declined doing, as he said he had been verbally directed by Gen. Miles to pursue this course should this demand be made, as he (Gen. Miles) was on his way to Charleston at the time to have this Order No. 145 revoked. Not deeming the affair of sufficient importance to call for prompt and speedy action, and preferring that the records of the Bureau should remain where they are for the present, Col. Frank has laid the matter before the Commanding General at Charleston, giving a full statement of the case, and asking for further instructions.—These instructions he awaits before proceeding further in the matter.—*Wil. Journal.*

The friends of Sambo are disposed to ignore his claims for promotion, and the evidence of this accumulates every day. The other day a resolution was introduced in Congress to send colored diplomatic representatives to Hayti and Liberia. One would suppose that this was the very thing desired by the Radicals; but no! "General Schenck rose to a point of order and objected that no question "of race or previous condition" could be mixed up in our diplomatic service. The Speaker sustained him, and so the claims of Sambo for elevation were disposed of. Now, we should like to know how it happens that "color and previous condition" cannot be brought up in Sambo's favor for promotion abroad, when in domestic legislation we have heard of nothing but "color and previous condition" since the surrender.—*Norfolk Virginian.*

DEATH OF A VENERABLE COLORED MAN.—Died, of apoplexy, on the 10th instant, at the residence of his old master, Dr. Owen, Humphrey Shelton, aged 79 years. He was for fifty years a minister in the Baptist Church, and was engaged in the ministry in that Church and in teaching poor colored children at the time of his death. He had guided and participated in sports of the children and grandchildren of his old master, and died in their midst, regretted equally by them as by his own immediate family.—*Lynchburg Virginian.*

WASHINGTON, Dec. 18, P. M.

Senate.—A memorial from the Norfolk Board of Trade, praying the repeal of the Cotton Tax, was tabled.

A memorial from citizens of Arkansas, affirming an outbreak imminent, on account of destitution in several Counties, was presented.

The Cotton tax was discussed, after which the President's message, regarding Hancock, was read, when amid much confusion as to its disposition, the Senate adjourned

House.—A bill for the relief of soldiers who deserted was reported, by the Military Committee. It was considered that it restored the officers who abandoned the Union for the Confederate army at the commencement of the war.

The message in regard to Gen. Hancock, was read, and amid considerable confusion ordered to be printed.

The Reconstruction Committee's bill, the substance of which was telegraphed yesterday, was resumed

Mr. Maynard gave notice of an additional section, authorizing the Conventions to establish Provisional Governments.

Mr. Stevens withdrew the section increasing the representation from the Southern States, and the bill passed by 134 to 37—a strict party vote.

The bill, as passed, provides that a majority of the voters shall ratify the Constitutions, and that at the time of voting on the Constitutions, members of Congress shall be elected, according to the Congressional Districts existing in 1858. The same officers who make returns of the votes on the Constitutions, shall give certificates of election to Congressmen.

Revenue to-day $545,000.

THE PRESIDENT AND GEN. HANCOCK.

WASHINGTON, Dec. 18, P. M.

The President's message is highly laudatory of Gen. Hancock's order No. 40, and concludes:

"I respectfully suggest to Congress that the same public recognition of Gen. Hancock's patriotic conduct is due, if not to him, to the friends of law and justice throughout the country, of such an act as his, at such a time. It is but fit that its dignity should be vindicated and its virtue proclaimed, so that its value, as an example, may not be lost to the nation."

ALABAMA MATTERS.

MONTGOMERY, Dec. 18, P. M.

The *Advertiser* says that Mr. Granger, the Sheriff, so-called, of Mobile, was in the city yesterday. He visited the military headquarters, wearing an anxious face as he went in and came out. It will be recollected that a prisoner in Granger's custody has sued out a writ of *habeas corpus* in Judge Busteed's court, alleging that he is restrained of his liberty by a man who is not a legal officer. This involves the whole question of the constitutionality of the reconstruction act.—Granger thinks that the act will be declared unconstitutional and the prisoner ordered to be set at liberty. It is shrewdly suspected that the so-called Sheriff, is petitioning the military here to come to his aid in resisting Busteed.

Accounts from the farming districts report great destitution among the farmers. The freedmen prowl through the country and kill beef cattle, milch cows and hogs, and live by general pillage. In some sections the cotton fields are still white. Labor is sought, but cannot be procured. Many freedmen were dismissed because their term of service had expired; others because they would not work, and the country is filled with thieving vagabonds. But few of them have made contracts as laborers for the next year, though many are anxious to do so. Preparations for farming next year are very circumscribed.

In consequence of the objectionable features in the new Constitution, in some sections the farmers require the freedmen to sign an agreement to vote against its ratification, on the ground that it ruins planters. A great majority of the planters are employing fewer laborers than ever before.

SPECIAL NOTICES

Life Insurance continues to occupy the most serious consideration of the heads of families, who, by the casualties of war, short crops and short price of Cotton, have been deprived of the support they relied upon, in case of death for their dependents; and the question with them is, "Which is the oldest, safest, largest, most economical and reliable Company represented in North Carolina?" I unhesitatingly assure them that I have indisputable evidence that the CONNECTICUT MUTUAL LIFE INSURANCE Co. is, without doubt, prepared to prove, from the most trustworthy and authentic official reports, that she has a larger amount of assets than all other Companies in this State combined; that for eighteen years she has declared an average of fifty per cent dividend; for thirteen years her interest on investment has exceeded her losses; and her vast business is conducted at a much less expense.

All she makes is shared by the assured. No Stockholder receives the lion's share of the profits, and no Company pays its losses more promptly. Last year (1866) she paid to widows and orphans upwards of **a Million of Dollars** Therefore, apply at once to P. F. PESCUD, Agt.,

LIFE INSURANCE.

[From the Insurance Monitor and Wall Street Review, New York.]

A Well-deserved Success—The Equitable Life Insurance Company.

The approaching demolition of seven buildings, consisting of that almost immemorial landmark, "Old Guerrin's," the less ancient "Standinger's," and the present office-building of the American Express Company, on the Southeast corner of Broadway and Cedar street, together with three adjoining buildings on the latter street, is attributable to that modern insurance giant, the Equitable Life. These seven buildings are all to be replaced by one six stories in height, including basement, and having a frontage of 96 feet 6 inches on Broadway, and one hundred and thirty-seven feet four inches on Cedar street. A number of the first architects in the country are engaged in perfecting plans for the structure, so as to make it in style, accommodation, and convenience, superior to any other building of the kind yet erected.

The building will, however, not only be made to accommodate the Company, but so arranged that the rental of such part as is not occupied by them will return an interest on the investment. The magnitude and surpassing growth of the Equitable Life not only justify this solid investment, but render it both expedient and necessary. Although this Company has been only eight years in business, its policies issued during the eighth year covered an insurance amounting to over thirty-five millions of dollars. The total sum secured by it up to the present day approaches 100 000,000; its accumulations have risen up to 3,000,000; its annual income to three millions, and will in the ensuing year doubtless extend to five million dollars.

For this rapid increase and substantial success there are abundant and just satisfactory reasons. They are found in the numerous solid advantages the Company affords. In the fact that it is purely mutual, that all its profits go to the insured on the first of February, every year, of which a large dividend has been regularly paid, amounting last year to six hundred thousand dollars. Its mode of applying dividends so as to accommodate them to the circumstances of the policy holders, is unequalled for the variety of its advantages it offers.

The Equitable has been enabled to deal thus liberally with its insured in consequence of the prosperity of its business and the economical plan of its management. The percentage of the "amount at risk," compared with its cash premium receipts, was less in 1866 than that of any other Company. Its policies average larger in amounts than those of any rival institution. If insures on a single life any sum from $250 to $25,000, and issues of the most desirable non-forfeiting policies. All its policies are, however, comparatively new, and it is therefore carrying but few impaired lives. In the percentage of losses, to amount at risk which is much less than that of older Companies, results this fact. The Equitable is indeed, full of vitality and progressive strength, and is regarded as the most successful and—taking into consideration its age—the largest Life Insurance Company in the world.

NEW MOVEMENT IN LIFE INSURANCE.

We learn that some of the cash companies of this City have decided to adopt a uniform scale of premiums to take effect after the close of the present year, with a view to greater simplicity and uniformity in their business. These rates have been carefully deduced from American experience, and will be more accurate and satisfactory than those hitherto used which were based upon English statistics. The Mutual Benefit, Washington, Wid

DAILY SENTINEL.

THURSDAY, DECEMBER 19, 1867.

THE FIRST SNOW FALL.

The snow had begun in the morning,
And busily all the night
Had been heaping field and highway,
With a silence deep and white.

Every pine, and fir, and hemlock
Wore ermine too dear for an earl,
And the poorest twig on the elm-tree
Was fringed inch deep with pearl.

From sheds, new roofed with Carrara,
Came Chanticleers muffled crow,
The stiff rails were softened to swan's down,
And still fluttered down the snow.

I stood and watched by the window
The noiseless work of the sky,
And the sudden flurries of snow-birds,
Like brown leaves whirling by.

I thought of a mound in sweet Auburn,
Where a little head-stone stood,
How the flakes were folding it gently,
As did robins the babes in the wood.

Up spoke our little Mabel,
Saying, "Father, who makes it snow?"
And I told her of the good All-Father
Who cares for us all below.

Again I looked at the snow-fall,
And thought of the leaden sky
That arched o'er our first great sorrow
When the mound was heaped so high.

I remembered the gradual patience
That fell from that cloud like snow,
Flake by flake, healing and hiding
The scar of that deep-stabbed woe.

And again to the child I whispered,
"The snow that husheth all,
Darling, the Merciful Father
Alone can make it fall."

Then, with eyes that saw not, I kissed her,
And she, kissing back, could not know
That my kiss was given to her sister,
Folded close under the deepening snow.

HOPS—HOW TO CULTIVATE THEM.

A hop grower of ripe experience says something in the extract below of interest to practical folks. We consider this subject of vast importance to our farmers and we commend it to their active consideration:

Select land protected from high winds, well drained, hard sub soil (clay or gravel) to hold fertilizers. Plow deep, manure well, if not rich. Pulverize well. Square the field and then subdivide into squares seven by eight feet, with a line, setting a small stick at each hill. Select good roots from the "English Grape" or "Goldings," and set four or five slips in a ten inch circle about the stick. Slips to be six inches long and set perpendicular. Compress the fine earth close about the roots, and entirely cover it. Set male hills to every ten square hills. Plant corn in the intervals, 3 1 2x4 feet. Hoe and weed when corn is worked, and "hill up" late in the season.

In November put from half bushel to one bushel coarse manure on the crown of the hill. Uncover them last of March. In the first half of April set two polls (cedar) 20 feet long, 4 inches at butt, running to smallest taper, well trimmed, bark on, one foot deep, taking space from the widest way. Train vine, two to the pole, to run clear of each other, with the sun. Fasten with light twine or yarn, by twisting, that it may not bind the growing vine. Continue to train until they are well started [illegible] pole. Plow and weed twice when necessary, and the third time when the hop is in blossom plow and "hill up." Pick early in August, when seed is turning brown. Dry in kill built for the purpose, managed by an expert.

It will be observed by the above that no crop is obtained the first year. Roots can be taken from the hills the second spring, and it is necessary they should be taken out. Roots are very high now—about $10 per bushel. An acre will require three bushels. We obtain them upon orders with proper security.

LOST TIME.—Let any man pass an evening in vacant idleness, or even in reading some silly tale, and compare the state of his mind when he goes to sleep or gets up next morning with its state some other day when he has spent a few hours in going through the proofs, by facts and reasoning, of some of the great doctrines in nature's science, learning truths wholly new to him and satisfying himself by careful examination, of the grounds on which known truths rest, so as to be not only acquainted with the doctrines themselves, but able to show why he believes them, and to prove before others that they are true, will find as great a difference between looking back upon time unprofitably wasted, and time spent in self-improvement. He will feel himself in one case listless and dissatisfied; in the other, comfortable and happy. In the one case he did not appear to himself humble, he at least will not have earned any claim to his own respect; in the other he will enjoy a proud consciousness of having, by his own exertions, become a wiser, and, therefore, a more exalted nature.

THE LIGHT OF NATURE.—There lived in Philadelphia, many years ago, a celebrated Indian chief named Tedyscung. He was sitting one evening by the fireside of a friend, both of them looking silently at the fire, indulging their own reflections.

At length the silence was interrupted by the friend, who said: "I will tell you what I have been thinking of; I was thinking of a rule delivered by the Author of the Christian religion, which, from its excellence, we call the Golden Rule."

"Stop," said Tedyscung, "don't praise it to me, but rather tell me what it is, and let me think for myself. I do not wish you to tell me of its excellence—tell me what it is."

"It is for one man to do to another as he would the other should do to him."

"That's impossible! It cannot be done," Tedyscung immediately replied; and taking his pipe, lighted it, and commenced walking about the room. In about a quarter of an hour he came up to his friend with a smiling countenance, and (taking the pipe from his mouth,) said, "Brother, I have been thoughtful of what you told me. If the Great Spirit that made man would give him a *new heart*, he could do as you say, but not else."

EZEK. XXXVI: 26. A new heart also will I give to you, and a new spirit will I put within you; and I will take away the stony heart out of your flesh, and I will give you a heart of flesh.

Little Bobby—"I say, ma, is it true that we are made out of dust?"

Ma—"Yes, my boy; so we are told."

Bobby—"Well, I'll be hanged if I believe it, 'cause, if—if we was, when we sweat wouldn't it be muddy."

Mrs. Jones, a farmer's wife in Connecticut, says—"I believe I've got the tenderest hearted boys in the world. I can't tell one of 'em to fetch a pail of water but what he'll burst out a cryin."
